

Representatives of the Japanese-German machine-tool holding “DMG MORI Russia” visited Turin Polytechnic University in Tashkent.

Rector of Turin Polytechnic University in Tashkent J. Sh. Inoyatkhodjaev received a delegation from [DMG MORI Russia](#) headed by Director I. G. Tonkikh.

[DMG MORI](#) ranks first in the global machine tool industry and is recognized as the world leader in the development of metalworking technology.

The visit of DMG MORI Russia delegation began with an acquaintance with the university campus and its scientific and technical base. During the visit, the parties discussed issues of further improving the educational base in the field of mechanical engineering.

Director of DMG MORI Russia Academy I. G. Tonkikh came up with a proposal to create a laboratory for students to practice working with DMG MORI machines. This will enable students to gain knowledge and experience in the world-class machine tool industry, as well as increase their competitiveness with foreign engineers.
