

Today's guests of the Turin Polytechnic University in Tashkent are the winners of the "Governor's Olympiad"

The Turin Polytechnic University in Tashkent today on June 18 of this year hosted the winners of the talented science Olympiad. An event was organized at our university in cooperation with the Almazar district administration and the district department of public education. The event was organized by the Almazar district hokimiyat and the district department of public education.

Dilfuza Davlatovna Toshpulatova, methodist of foreign languages of the department of public education, English, Physics and Mathematics in three subjects of the Olympiad, and the exams were conducted by qualified teachers of the district training center "Registan" and the polytechnic university of Turin, reported that it was carried out by.

Rector of the Turin Polytechnic University in Tashkent Jamshid Inoyatkhodjayev congratulated the young people on their achievements, expressed confidence that in the future they will develop highly qualified personnel for the development of our society and informed the participants about the opportunities of the university of Turin.

The Almazar district administration presented valuable souvenirs and certificates of honor to 9 students who showed the best results in the Olympic tests. It is noteworthy that the graduates who won the first place in all three disciplines were awarded certificates and honorary diplomas, giving them the opportunity to receive preferential access to the university of Turin.

The event left a lasting impression on the parents and students of the winners, and we all witnessed another step towards the great goal of building the Third Renaissance in our country.
