

Start-up projects are supported!

As a result of the presentation held at the National Bank of Uzbekistan on August 23, 2021, students of the Turin Polytechnic University in Tashkent received credit from the National Bank for start-up projects.

The purpose of the credit is to create the necessary conditions and opportunities for talented young people to fully demonstrate their talents and potential in all areas. Financial support for youth entrepreneurship.

Loan amount – up to the equivalent of 100 thousand US dollars.

During the presentation, our students provided detailed information about their projects. The projects eligible for loans are:

1. VELOCITY (Rent of the bicycle)

Idea: Take the bike from one park and leave it in another park at the destination.

2. PACS IMAGE VIEWER

Idea: A system of hardware and software designed for medical use.

3. PQB in IoT

Idea: A scientific project to protect the Blockchain system from possible cyber attacks by Quantum computers.

4. SMART TRUNK SYSTEM

Idea: A sensor device that allows you to open the trunk with the help of foot movements is mounted on the bottom of the rear bumper of the car.

5. SMART, SECURITY CAR ALARM SYSTEM

Idea: Smart, safe, security system for the car

6. BIOSTART Idea: The human fingerprint is a keyless, unlocking device that provides some energy savings. Mainly for cars
