

Space – From infinity to Business!

On December 1, 2021, at the Turin Polytechnic University in Tashkent, together with the Agency for Space Research and Technology under the Cabinet of Ministers of the Republic of Uzbekistan, an event was held with the participation of foreign experts, such as Anastasia Stepanenko and Vitaly Egorov, to widely highlight space achievements.

Anastasia Stepanenko is a participant in the international space projects Mars-160 and Sirius-19.

At the event, experts familiarized the participants with the space sector and spoke about their personal life experiences in this area. In addition, the participants were aware that there is currently a wide range of opportunities for the private sector in this industry.
