

TTPU STUDENTS STUDY ABROAD WITH STATE GRANTS.

TTPU students have the opportunity to study abroad through exchange programs of our University as well as through state grants.

Gayratov Jasur is one of such talented students, who had a chance to win the state grant.

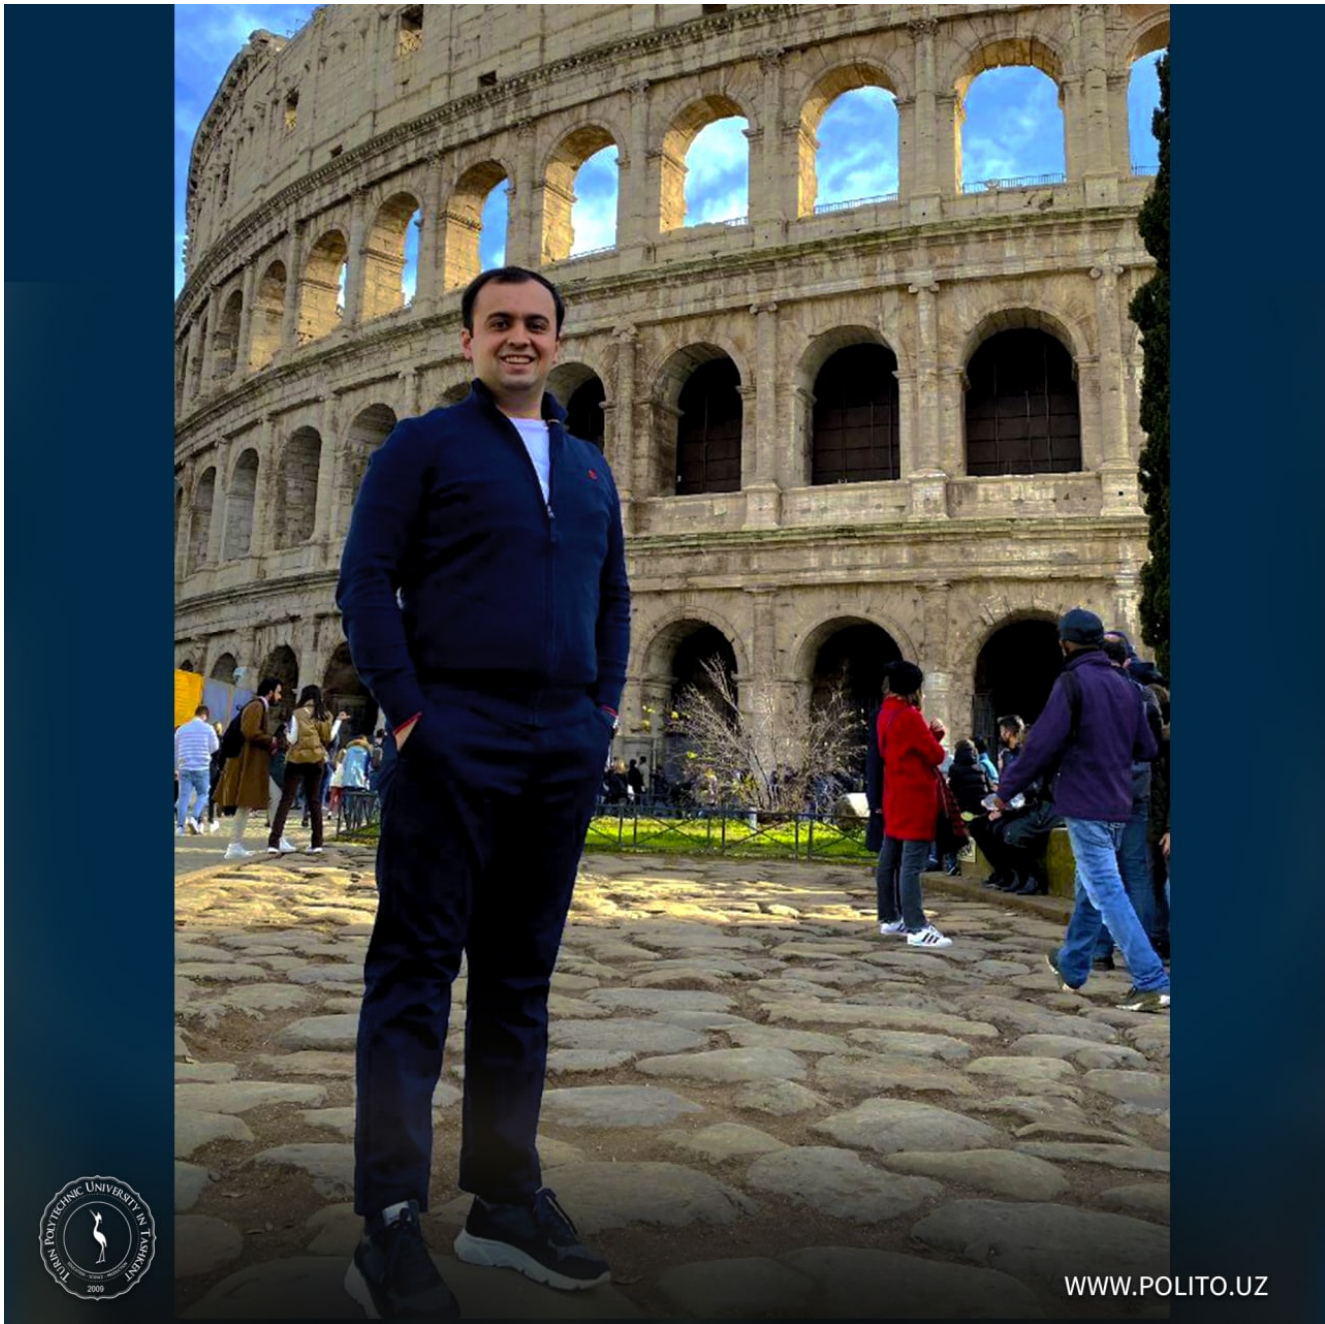

He graduated from Bachelor's degree in "Mechanical Engineering" at Turin Polytechnic University in Tashkent (2015-2019). During his student days, he was an activist of the University's Student Union. From 2019 to 2021, he continued his career at the university, working as a Human Resources Specialist and Manager of the Juventus Football Academy.

Jasur is the winner of a grant from "El-Yurt Umidi" Foundation under the Cabinet of Ministers of the Republic of Uzbekistan for study abroad for the 2021-2022 academic year and is currently studying Master's degree "Engineering and Management" at Turin Polytechnic University in Italy.

"Studying in a foreign country means not only gaining foreign knowledge, but also living in an environment with people with other worldviews and learning new things for yourself. I am especially grateful to our government and university administration for the opportunities created to study abroad in Master's program. I am ready to provide all possible advice and assistance to all students of Turin Polytechnic University in Tashkent, who intend to participate in the next competitions of the "El Yurt Umid Foundation", said Jasur.

You can follow information about Italian life, education and various grants on our student's personal channel (https://t.me/jasur_gayratov)

We congratulate our talented student with his achievements and wish him success in his future plans!
