

Professors and Engineers of Turin polytechnic university are attending international training courses at Politecnico di Torino

From March 28 to April 8 this year, here, at Politecnico di Torino (Torino, Italy), regular short-term training courses are being held for the ELBA project academic teams, including the Turin polytechnic university in Tashkent, within the framework of the ELBA project.

At the courses, the ELBA project team of the Turin polytechnic university in Tashkent is represented by the professors and engineers of the university Prof.Kudratillo Fayazov, Prof.Utkir Safarov, Eng.Makhkam Kayumov, Eng.Azizjon Kobilov, and the Project manager Mr.Mansur Asranov.

The training courses have started on March 28 this year, under the guidance of Professor of Politecnico di Torino Prof.Roberto Fontana, one of the European Academic coordinators of the ELBA project.

The courses will be held over 10 days in the following three modules:

- Statistical methods in data science (3 days);
- Computational linear algebra for large-scale problems (6 days);
- Design of experiments (1 day).

Upon completion of the training course, all participants of the course will be awarded certificates of completion and

mastering of the training materials of the course.
