

Closing ceremony of the educational project Huawei “Seeds for the future” was held in Tashkent

On November 23, the closing ceremony of “Seeds for the Future 2022” was held, which for the eighth time brought together students of universities of Uzbekistan to improve knowledge and skills in the field of IT

From November 14th to 21th, students from seven universities in Uzbekistan took part in the annual Huawei Seeds for the Future 2022 training program, aimed at studying advanced technologies and the impact of digital solutions on the sustainable development of the world.

Within eight days, lectures, master classes, open discussions with international experts from Huawei, as well as experts from partner organizations were organized. The project was held in a hybrid format at the Huawei office in Tashkent with live broadcasts from the headquarters and virtual tours of technological showrooms, as well as online participation of mentors for leadership development, start-up launches and the implementation of business ideas.

30 students from 7 universities of Uzbekistan were selected to participate in the project. 5 students from the Turin Polytechnic University in Tashkent participated in this educational project:

- Koriev Amirkhon
- Mirkhakimova Mushtariibonu
- Mirkomilov Abdulvoris
- Turobov Mirkozim
- Hamza Endican

All program participants were awarded certificates and valuable prizes from Huawei. At the end of the program, the “Digital Climate” team took first place in the group, as well as among 12 teams from different countries under the leadership of our student Koriev Amirkhon.

It should be noted that teams have the opportunity to refine their projects according to the comments and advice received, and take part in the Tech4Good global competition, which will be held in January 2023.

We wish good luck to all project participants in the Global Competition
