"International Conference on Electrical Engineering & Computing Convergence and Applications 2023"

The international conference "International Conference on Electrical Engineering & Computing Convergence and Applications 2023" (ICEE-CCA 2023) is being held at Turin Polytechnic University in Tashkent city from August 16 to 19, 2023.

The conference held in a hybrid format (offline and online) will encompass discussions and presentations on a variety of topics such as Electro-Physics & Applications, Power Asset Management, Power IoT & Sensors, Artificial Intelligence & System Convergence, Intelligent Transportation Systems for Green Mobility and Geomatic Engineering & Building Information Modeling. Many research papers and ideas about these topics are set to be discussed during the event.

Organizers of the international conference:

• KIEE-Electro-physics and applied society

• Korea National Transport University

• Turin Polytechnic University in Tashkent,

• Turin Polytechnic University (Italy)

• Tashkent University of Information Technology named after Muhammad al-Khorazmi

On August 18, 2023, the opening ceremony of the International Conference on Electrical Engineering & Computing Convergence and Applications 2023 (ICEE-CCA 2023) was held at TTPU.

The floor for opening the conference was given to 1st Vice President of Korean Computer and Information Society Dr. Won-Joo Lee, First Vice Rector of Tashkent University of Information Technologies Dr. Doniyor Yakhshibaev. His Excellency Jang-Hyun Kuk the Minister-Counsellor and Consul-General of the Republic of Korea in the Republic of Uzbekistan and Toychiyev Olimjon Alijonovic Director of the Innovation Agency of the Republic of Uzbekistan made a congratulatory speech.

During the conference conducted in a hybrid format (both offline and online). leading specialists, from foreign countries as well as professors, scientists and experts local

university presented their scientific work and exchanged valuable insights.

The exhibition of Korean industrial companies and of local innovative projects was also conducted, where the guests had the opportunity to get to know about them. The conference continued its work in oral sessions and poster sessions.

During the conference, a memorandum on mutual cooperation was signed in cooperation with TTPU, Korea's Daejeon University and Korea Computer Information Society.
