

“Advanced science and technology: Celebrating 15 years of Turin polytechnic university in Tashkent”

Science and Technology: Celebrating 15 Years of Turin Polytechnic University in Tashkent”. The conference is dedicated to presenting and discussing scientific issues related to the specialties taught at TPU. The conference was opened by the rector of Turin polytechnic university in Tashkent O.Tuychiev, who warmly welcomed the participants and guests and briefly outlined the development of science and technology closely linked to education at TTPU. Then, the rector of Politecnico di Torino Stefano Paolo Corgnati gave a brief welcome speech.

In the first part of the conference, plenary reports were presented by academician D. Tulyaganov and Prof. Alberto Sapora. After the plenary reports, sectional reports were presented. On the first day, reports were presented on the following topics: Natural Sciences, Information and Communication Technology, and Production Management.
