

The meeting of the DEBSEUz international project participants is being held at the Politecnico di Torino in Italy.

The Ministry of Higher Education, Science and Innovations, Turin polytechnic university in Tashkent, in collaboration with 7 universities from Uzbekistan and 3 universities from the European Union – Politecnico di Torino (Italy), Universidade de Evora (Portugal), and Universidad Politecnica de Madrid (Spain) – is actively participating in the Erasmus+ Higher Education Capacity Building project “Development of the Targeted Educational Program for Bachelors in Solar Energy in Uzbekistan (DEBSEUz)”.

Currently, the meeting of the DEBSEUz international project participants is being held at the Politecnico di Torino in Italy.

TTPU (Shakhlo Mavlyanova – coordinator) presented a report on the activities carried out on the quality of project implementation. The quality control plan of the project implementation was presented. Also, the Prof. Wassal ABBASSI, External Quality Expert was introduced, who was appointed after the tender for selection of candidates.

This meeting is also dedicated to discussing several work packages, including:

- Project coordination and management
- Data collection and staff training
- Establishment of laboratories and centers
- Project promotion

– And various other issues

The collaborative efforts in these areas aim to enhance the educational program and foster innovation in solar energy education in Uzbekistan.
