

# **“Digital Transformation of Industrial Enterprises” forum was held at Turin Polytechnic University in Tashkent**

During the official visit of the President of the Russian Federation to the Republic of Uzbekistan on 26-27 May 2024, a number of documents were signed on further development of bilateral cooperation in various spheres, in particular, on the development of industrial cooperation, introduction into production of scientific and innovative developments based on the best Russian experience, as well as on technology transfer.

At the same time, in order to ensure the implementation of the tasks set at the video conference call on training in engineering and further improvement of higher education institutions held on 20 June, 2024, under the leadership of the head of state, as well as based on the needs of entrepreneurs in the industrial sphere, a forum on “Digital Transformation of Industrial Enterprises” was held on 27 June at Turin Polytechnic University in Tashkent, with the participation of the largest Russian industrial companies in Russia.

The forum was attended by about 10 large Russian enterprises with presentations in the field of modern robotics, digital twin, 3D/CAD modelling and VR/AR technologies for their educational system and industrial enterprises.

The event, held in online and offline formats, was attended by representatives of the Chamber of Commerce and Industry of the Republic of Uzbekistan, the international women’s public foundation “Sharq Ayoli”, large industrial enterprises such as

“UzAutoMotors” AK, “Uz-Koram Kompani” LLC, “Uzeltexsanoat”, “AVT00YNA” LLC and others, a number of research institutes, such as the Institute of Mineral Resources, the Institute of Geology and Exploration of Oil and Gas Fields, leading technical higher educational institutions, technoparks of our country. They had the opportunity to study foreign experience, as well as discuss issues of its further application in their activities.
