

A cooperation agreement was signed between Turin Polytechnic University in Tashkent and “AgroTech Cluster” LLC

In order to effectively implement the tasks set at the video conference held under the chairmanship of the Head of state on the training of engineering personnel and improving the activities of higher educational institutions, representatives of the Turin Polytechnic University in Tashkent visited the Chirchik cluster of agricultural Engineering – “Agrotech Cluster”.

As part of the visit, university representatives acquainted the company's employees with the university's activities and conducted a presentation on master's and bachelor's programs.

At the end of the event, a meeting was held with the participation of Azizbek Mukhitdinov, General Director of "AgroTech Cluster", and issues of comprehensive bilateral cooperation on training qualified personnel in the field of engineering were discussed.

These included:

- Establishing a branch of "Mechanical Engineering Technology and Aerospace Engineering" Department at AgroTech Cluster and equipping it with the latest machinery, processing technologies, and equipment samples.
- Reviewing and shaping course projects, graduation qualification works, and master's thesis topics based on existing production issues, with the participation of leading specialists from the company.
- Equipping educational laboratories with modern equipment according to educational programs.
- Sending academic staff from the Department of "Mechanical Engineering Technology and Aerospace Engineering" for internships at AgroTech Cluster.

An agreement was reached on these important matters, and a cooperation agreement was signed to implement these initiatives.
