A youth event in the Tashkent Botanical Garden

On the 8th of February of this year, it was held a youth event in the Tashkent Botanical Garden. The event included masterclasses, performances, contests and exhibitions of all Tashkent high educational institutions.

Students of Turin Polytechnic University in Tashkent presented their robotic developments and technical projects like 3D-printer, Humanoid robot and an unmanned aerial vehicle.

In addition, many young people interested in our university had the opportunity to receive information about university education, opportunities and entrance exams.
