

# Collaboration in the development and improvement of educational programs and scientific research

On 29th of June of this year, Turin Polytechnic University in Tashkent (TPUT) and the *Center for the Study of Industrial Markets and Labor Efficiency in Production* under the Ministry of Economic Development and Poverty Reduction of the Republic of Uzbekistan came to an agreement on cooperation based on mutual interests in developing and supporting the education of young scientists, improving educational programs, research and innovation.

The purpose of the partnership is to establish mutually beneficial cooperation between the parties in the field of education, science, innovation, increasing labor productivity, developing and implementing high-tech projects, marketing new technologies and creating modern high-tech industries.

During the meeting, the parties discussed the possibilities of partnership and identified general areas of cooperation. We hope that the joint activities of the parties will be a big step in the development and improvement of educational programs and scientific research.
