

New undergraduate programs

Undergraduate programs in “**Software Engineering**” and “**Architecture and Design**” have been established at Turin Polytechnic University in Tashkent.

Students will begin their studies in the new academic year from the 2021-2022 academic year. Education is full-time, duration is 4 years, all subjects are taught in English by local and foreign professors, students have opportunity to study 1 or 2 semesters through the Exchange student program at foreign partner universities during their study. Students can participate in the Work & Travel program in 2nd and 3rd year.

The educational process is based on the European Credit Transfer and Accumulation System (ECTS).

The contract amount is 19,200,000 soums.

The State Inspectorate for Quality Control in Education under the Cabinet of Ministers of the Republic of Uzbekistan has issued a license for new areas of education. Under this license, graduates are awarded an international diploma that is recognized in Uzbekistan and abroad.
