

International seminar on “Energy transition as a viable boost for sustainable economic development”

An international scientific-technical conference on **“Energy transition as a viable boost for sustainable economic development”** is scheduled for October 15, 2021 at Turin Polytechnic University in Tashkent, in cooperation with the Embassies of Italy and the United Kingdom in Tashkent and the Politecnico di Torino, Italy.

The international conference will be attended online and offline by leading energy experts from foreign universities such as The University of Strathclyde (UK), Politecnico di Torino (Italy) and Siemens Energy, Juru Energy.

The international conference will provide an opportunity for local professors, senior researchers and independent researchers working in the field of alternative energy to exchange experiences and develop partnerships with foreign experts.

International seminar on “Energy transition as a viable boost for sustainable economic development”
