

Tutors are visiting the students' rented apartments

Academic groups tutors of Turin Polytechnic University in Tashkent are visiting the rented apartments where students live, in order to study their living conditions and readiness for the winter season.

During the visit, tutors are talking to the owners of the apartments, as well as necessary recommendations are given regarding the prevention of carbon monoxide poisoning and the safety of the equipment.

A festive event dedicated to the Constitution Day was held

The Constitution is a set of laws that defines the perspective of our tomorrow. Therefore, it is necessary to learn the Constitution deeply and comprehensively, which is the criterion of the life of our society, realize its meaning and turn it into a permanent guide of our practical life.

A festive event was organized on the occasion of the 30th anniversary of the adoption of the Constitution of the Republic of Uzbekistan at the Turin Polytechnic University in Tashkent, under the theme “Youth – the treasure of our future”.

Alisher Ashurov, the first vice-rector of the university, opened the “December 8, the day of the adoption of the Constitution of the Republic of Uzbekistan” event. Then the event was continued by Ziyodulla Sadullayev, the deputy mayor of Almazor district for youth issues, with an address to the youth. Almazor district court judge on criminal cases, Sadiqov Khurshid, also congratulated the participants of the event and gave an interesting speech to the students about the rights and duties of citizens and the opportunities created for young people in the constitution.

The celebration was continued by the presentation and videos on the topic “Constitution and tolerance” prepared by university students. Uzbekistan is a multinational country. Representatives of different nationalities and peoples have been living on this land for centuries, and the atmosphere of inter-ethnic harmony and inter-religious tolerance prevails in our country. It was noted that Uzbekistan is becoming an example of tolerance for the countries of the world.

Tursunmetova Gozal, Chairman of Young Lawyers Council of the Youth Union of Uzbekistan, spoke about the implementation of the Decree of the President of the Republic of Uzbekistan №

5106, the consistent and effective implementation of the state policy on youth in our country, and the comprehensive support of young people, touched on the system of protection of rights and legal interests.

The event was given a special atmosphere by the stage performances and musical performances of artists.

A seminar was held dedicated to the Worlds AIDS Day.

A seminar dedicated to “December 1- Worlds AIDS Day” was organized for students of the Turin Polytechnic University in Tashkent. D.Narimonova, Head of Department of Red Cross and Crescent Movement of Uzbekistan, H.Akhmedova, Executive Director of Olmazor district, V.Abdullaeva, doctor of inter-district dispensary for skin-genital diseases, A.Tajiddinova and F.Jabborova district Sanitary epidemiological and public health service pecialists took part in the seminar.

The meeting was opened by the head of the university spirituality and enlightenment department Allamova G.A., who talked about the purpose and importance of holding such events, and introduced the guests.

Speaking at the meeting, Kh. Akhmedova gave a lecture to the students about the International Red Cross and Red Crescent Movement, its tasks, as well as healthy lifestyle, consequences of harmful habits in human life, AIDS and its prevention. Then V. Abdullaeva made a speech, explaining the difference between HIV and AIDS, acquired immune deficiency syndrome, its causes, preventive measures, gave students interesting information about skin and genital diseases.

During the meeting, videos and video slides were shown to students, informed and encouraged to be aware of this immunodeficiency disease. During the event, students received answers to their questions.

Roundtable discussions were held on the topic of crime prevention

Under the leadership of Alisher Ashurov, the first vice-rector of the Turin Polytechnic University in Tashkent, roundtable discussions were held among university employees, academic staff and students on the topics of increasing students' legal knowledge, early prevention of crime. At the meetings held with the students, the head of the university's department for working with youth, G. A. Allamova, senior inspector of prevention, lieutenant colonel Yusupov Sh. and tutor of academic groups Sattiev F.O. participated.

During the discussion, the students were informed that regardless of their age and social background, they will be held legally responsible for any crimes and criminal actions according to the relevant articles of the Criminal and

Administrative Responsibility Codes of the Republic of Uzbekistan. At the end of the event, students received detailed answers to their questions from the expert.

Closing ceremony of the educational project Huawei “Seeds for the future” was held in Tashkent

On November 23, the closing ceremony of “Seeds for the Future 2022” was held, which for the eighth time brought together students of universities of Uzbekistan to improve knowledge and skills in the field of IT

From November 14th to 21th, students from seven universities

in Uzbekistan took part in the annual Huawei Seeds for the Future 2022 training program, aimed at studying advanced technologies and the impact of digital solutions on the sustainable development of the world.

Within eight days, lectures, master classes, open discussions with international experts from Huawei, as well as experts from partner organizations were organized. The project was held in a hybrid format at the Huawei office in Tashkent with live broadcasts from the headquarters and virtual tours of technological showrooms, as well as online participation of mentors for leadership development, start-up launches and the implementation of business ideas.

30 students from 7 universities of Uzbekistan were selected to participate in the project. 5 students from the Turin Polytechnic University in Tashkent participated in this educational project:

- Koriev Amirkhon
- Mirkhakimova Mushtariibonu
- Mirkomilov Abdulvoris
- Turobov Mirkozim
- Hamza Endican

All program participants were awarded certificates and valuable prizes from Huawei. At the end of the program, the “Digital Climate” team took first place in the group, as well as among 12 teams from different countries under the leadership of our student Koriev Amirkhon.

It should be noted that teams have the opportunity to refine their projects according to the comments and advice received, and take part in the Tech4Good global competition, which will be held in January 2023.

We wish good luck to all project participants in the Global Competition

A number of agreements were reached during the visit to Italy

As reported, rector of Turin Polytechnic University in Tashkent J.Sh. Inoyatkhodjaev is currently on a business trip in Italy as a part of Uzbek delegation to establish comprehensive cooperation and reach agreements on the implementation of personnel training, retraining system by using the most modern technologies implemented in developed countries in the automotive industry and other industries.

In particular, in cooperation with the Turin Polytechnic University in Italy, an agreement was reached on the

preparation of personnel with technical skills in digital technologies, advanced automation, “economical production” in the direction of dual education “industrial production technologies” on the basis of a 3-year training plan. According to the agreement, one third of the education process will focus on obtaining theoretical knowledge, and the rest on high professional practical knowledge and skills in industrial engineering, as well as training future specialists by involving them in laboratory classes.

Within the framework of the meeting, negotiations were held on cooperation with the CIM 4.0 competence center of Italy, organization of the “Industrial 4.0 Academy” of Turin Polytechnic University in Tashkent at the Andijan Institute of mechanical engineering was agreed. The Academy provides the opportunity to annually train 80 mature engineers to enterprises of the production sector.

Within the framework of the meeting, negotiations were held on

cooperation with the CIM 4.0 competence center of Italy. At the Andijan Institute of mechanical engineering, the Organization of the “Industrial 4.0 Academy” of Turin Polytechnic University in Tashkent was agreed. The Academy organizes a system of training, retraining and professional development of its personnel on the use of the most modern technologies implemented in developed countries in the automotive industry and other industries. The Academy provides the opportunity to annually train 80 mature engineers to enterprises of the production sector.

“Yashil makon”: planting works continues...

The planting work within the framework of the “Yashil makon” initiative is in full swing at the Turin Polytechnic University in Tashkent.

As part of the measures in which the university staff participates in cooperation and good mood, fruit and ornamental trees were planted.

Yashil makon” (“Green space”): “Urgent 40 days” events have started at TTPU

Currently, the national project “Green Space” is being consistently implemented at Turin Polytechnic University in Tashkent. During the “Urgent 40 days” event, which was announced within the framework of this project, work on planting seedlings and creating green spaces was started.

More than 100 seedlings of ornamental trees and shrubs were planted on the territory of the university. These planted seedlings will now be fed with mineral and organic substances, protecting them from pests

Within the framework of the “Urgent 40 days” event, every employee of the university approaches the greening works in a cooperative and upbeat mood.

Enlightenment against ignorance

On November 4, 2022, an event called “Enlightenment against ignorance” was held at the Conference Hall of the Turin Polytechnic University in Tashkent.

The event was opened by the rector of the University J.Sh.Inoyatkhodjaev, emphasizing the reforms carried out in our country today, the conditions and opportunities created for young people, the need to properly approach education and upbringing, and gave a speech to J.V Melikoziyev, the representative of the Committee of Religious Affairs Cabinet of Ministers Republic of Uzbekistan.

In his speech J.V.Melikoziyev gave a lecture on such topical

issues as reforms in the socio-economic, religious sphere carried out in our country, as well as the noble teachings of Islam, such as humanity, peace, tolerance, as well as issues of ideological risks and prevention spreading through the internet and social networks.

Also, in today's era of globalization, issues of combating various ideological threats were discussed, and the importance of fighting ignorance with enlightenment and being aware was emphasized.

After the question-and-answer event, a documentary film was shown to the students. At the end of the discussion, the students got answers to all their questions.

The university stage of the Republican contest “Student of the Year” was held at TTPU

On November 1, 2022, the university stage of the “**Student of the Year – 2022**” contest was held at the Turin Polytechnic University in Tashkent.

First, university rector J.Sh. Inoyatkhodjaev spoke about holding the traditional “Student of the Year” Republican contest among students at a high-level, the purpose and importance of this event and wished good luck to all the participants. Then, the talented students of the university participating in the competition in different nominations made interesting presentations about their work, achievements and ideas.

The members of the jury expressed their opinions on the students' presentations and made suggestions and recommendations for further improvement of the work done by them.

Based on the results of the students' performances, the jury of the contest came to decision, and recommended the following students for participation in the Republican stage of the contest "Student of the Year":

1. **Qoriyev Amirxon** (“Computer engineering” 4th-year student) – “The most active student propagandist of the year”;

2. **Urunov Asadbek** (“Mechanical engineering” 3rd year student)

– “The most active inventor-innovator student of the year”;

3. **Tursunov Diyorbek** (“Civil engineering” 4th year student) - “The most knowledgeable student of the year in his specialty”;

4. Xaitov Narzullo (“Civil engineering” 3 rd year student)-
“The most active creative student of the year”;

5. Mirkomilov Abdulvoris (Mechanical engineering 4 th year

student)– “The most active talented student of the year”

We congratulate our students on their first victory and wish them even more victories in the Republican stage of the contest.

Juventus Academy in Tashkent sent its first team to the tournament

The “Antalya Friendship Cup” international football tournament among children has been started in Antalya, Turkey.

More than 30 teams from 20 countries are expected to participate in this tournament, which is held from October 30 to November 4.

For the first time, the under-12 team of the Juventus football academy in Tashkent also flew to Antalya to participate in this tournament.

Initiation ceremony – 2022

On October 27, 2022, a cultural-educational event was held dedicated to “Initiation ceremony” to TTPU freshmen, admitted in 2022-2023 academic year and “October 21- the day when the Uzbek language was granted the status of the State Language”.

First, the event was opened with the anthem of the Republic of Uzbekistan. After that, the rector of the university Inoyatkhodjaev Jamshid Shuhratullaevich made a speech and said

that the university will provide the necessary conditions for the students to become leading specialists in the future.

During the annual event, students take their oaths to dedicate all their activities for our motherland and its great future, to become highly qualified professionals, to be the best before parents, to devote all their knowledge in order to fully fulfill it, regularly acquire practical knowledge and skills in the chosen specialty, to complete the activities specified in the curriculum and programs on time, to constantly participate in training sessions, use the acquired professional knowledge, master the engineering profession and contribute to the development of the economy of our country, and consider compliance with the internal rules of the university as their sacred duty.

After that, our students who scored the highest points at the entrance exams for the 2022-2023 academic year Madaminova Kamola (Mechanical Engineering Technology), Abduganiyev Abdulaziz (Information Technologies), Shakirov Temur (Civil engineering), Kurbanova Nigora (Management). a ceremonial handing of course symbols (attributes) was held by the heads of departments.

In order to welcome the students, the participant of university music club Shohruh Hasanov and its leader Mansur Saparbaev presented musical performances, and our students

Sarvinoz Yoldasheva and Khayitov Narzullobek read poems.

In order to convey the beauty and sophistication of our Uzbek language, literature, culture, and art to our students, Uzbek People's Artist of Uzbekistan Tesha Muminov visited the event.

Tesha Muminov spoke about the history of the Uzbek language, the works of our ancestors, great writers and poets.

To show his achievements, educational system of the university, the created conditions, the projects implemented in the last two years and to motivate the students, an active and talented student, winner of several contests, a third-year student Urunov Asadbek presented a very informative presentation.

We wish all the students to stay true to their oaths, raise the dignity of our country to the heights, and become worthy children of a bright future in the future.

The problem of the incorrect strategy of restoration of historical buildings in the republic of Uzbekistan and it's modern solutions.
